

Annual Report 2021-22

Helping Organisation for People Environment and Animal Trust

Web: www.hopeandanimal.org Email: hopeandanimal@gmail.com

Reg No: 9549/IV – 799 Established: 2001

From Chairperson's pen

Our regular work of ABC and ARV along with rescue, treatment and release continued. We had been working to increase our volunteer base and achieved considerable result. Awareness regarding rabies and its prevention was done on regular basis by our teams. Every year with new innovative ideas and efforts we are trying to help many animals as much as possible. We are now spread out Ranchi's surrounding regions upto 100 kilometres, Varanasi as well covering Sarnath and Din Dayal Nagar (Previously known as Mughalsarai), Aurangabad is covering Shirdi, Patiala and Rishikesh. We are thankful to all our supporters for giving us support to carry on our work on regular basis.

Anjali Srivastava

Ranchi

The year 2021 began with slight restrictions due to pandemic and life trying to come back to normalcy. Again an upsurge in the cases of Covid by March. In between this ups and downs we had four ABC and ARV camps in Hazaribagh and Ramgarh about 100 and 50 kms away from Ranchi during the year. There was growing volunteer support not only in Ranchi but also from out station and we are taking more steps for increasing it further. Our supporters had

donated generously for the community dogs undergoing treatment at our centre. Ranchi Municipal Corporation has done some fabrication and renovation work of the centre.

Dr. Ajoy is a pillar of the Ranchi Project.

He has been with us since 14 years, has gained immense experience over the years dealing with various complicated rescue cases and conducting ABC surgery.

Dog Catching and Surgery

Dog Catching is the initial procedure in the work of Animal Birth Control Programme (ABC). The catchers pick up the dogs from different wards of Ranchi and then the process begins which ends with the sterilisation and release of the dogs back to their area from where they were picked.

Nothing could deter the spirit!!

With rising Covid cases in second wave and Swastha

Suraksha Saptaha, locked down and restrictions put by the government to break the chain. Our team continued with the ABC & ARV along with rescue, treatment and release of the community dogs so the voiceless do not suffer in these troubled times. The work of our **“Covid Warriors”** is appreciated were streets were deserted and our team at work.

Covid vaccination of our team

We got our team vaccinated against Covid 19 at the Vidhan Sabha centre for vaccination as they were the frontline workers who were in direct contact with the people while catching the community dogs for sterilisation. We are thankful to the government that they recognised our team as **“frontline workers.”**

Street feeding during locked down

Street feeding of the community dogs was done by our team during the extension of "Swastha Suraksha Saptaha" as they were the once who were most affected. The pandemic had brought every thing to a still. The food joints were closed and they did not had access to the left over food. Hence were searching for food. The need of the hour was to join hands in feeding the voiceless of the street.

Volunteer support in street feeding during Covid

All were facing hard times so were the community dogs. To break the chain government had imposed restrictions by the name of Swastha Suraksha Saptah and it was extended as there was no other way out. Due to which the restaurants, food joints were closed. Thus these furry angels of the street did not had access to the left over food. The community dogs were desperately searching for food in this troubled times. We are thankful to our volunteers who were carrying on feeding in various localities of Ranchi. We would like to thank Mr. Sumant Singh our regular supporter and volunteer who feeds all the

community dogs living on the street near his house in Pragati Vihar Colony, Dibdih and was carrying on even during pandemic.

We all needed to join hands in feeding the community dogs during this ongoing catastrophe.

Awareness campaign in Covid era

Since the schools were closed campaigns in schools could not be conducted. Our team while catching the community dogs for sterilisation carried on the awareness campaign adhering to Covid guidelines. They distributed pamphlets and made people especially the younger generation aware about the prevention of rabies.

Annual Statistics—

December 2021	44	10	180	188	24045

Awareness campaign in school

Since the schools were closed the education campaigns in schools could not be conducted. We got special permission to carry on awareness campaign in “J K International School”, Agru, Ratu Ranchi on “World Rabies Day”- 28th September 2021.

WORLD RABIES DAY- “Facts not Fears”

Our Team members Mr. Nandan Sharma and Mr. Chottu Lohara visited J K International School, Agru, Ratu and organised a workshop on World Rabies Day. They made the students of the school aware about the Rabies

and its prevention. They distributed pamphlets on rabies amongst the students. They informed them how the Animal Birth Control and Anti Rabies Vaccination programmes are carried out, which over a span of 12

years has helped in keeping the city of Ranchi rabies free since 2017.

We got good response from the students who asked question regarding how the disease spreads and what are the ways of its prevention. The questions were answered well by our team members Mr. Nandan Sharma and Dr. Jigisha Srivastava.

Cases of Rescues, Treatment and Release

We had provided treatment to **54 IPD cases** (case no 85 to 139) of rescues in 2021 apart from that field treatments and OPD cases have also been done both of **Ranchi** and **Out-station**.

1. Field treatment

This is the case of field treatment from Patel Nagar, Birsa Chowk, about a community dog had got his head stuck in a plastic container.

We rescued and freed him.

Case 109 from Ratu Road Inderpuri, a female dog with wound full of maggots and was big. She was with us for about 25 days. With proper food, care and medicines she recovered. On full recovery she

was re-released back to her area under the care of the volunteer.

2. Treatment cases at our centre—Case 107

One of the person called and informed us that a dog was stuck in the heap of coal tar. A thick layer of coal tar was clinging on the skin of the dog. Due to which he was in immense pain. On receiving the call our team reached and rescued the dog. The dog was brought to the centre and our vet cleaned the skin and removed the thick layer with the betadine solution. Apart from this there were some wounds too on fore limb and was also suffering from mange. Antibiotics, painkillers and others medicines for skin dis-

ease were given. Dressing of the wound was done on regular basis. With proper care, medicines and food the condition

improved. On full recovery was released back to the area. Such kind of irresponsible act of humans lead to such big problems for these voiceless angels of the street. Had the coal tar not been left on the street piled up after use the dog would not have been stuck in it.

Thus it is the duty of we humans to take care that such unused construction waste should not be left on the street which could harm community animals.

Case 89

Our catchers found a female dog during catching who was roaming near samlong, Chutia with a pencil and a screw driver injected in her vaginal region. She was in immense pain. They caught her and brought to our clinic. Our vet Dr. Ajoy after observation removed the pencil and screw driver which was injected in her vaginal region by surgery. She was relieved from immense pain. With proper care, food

and medication she is recovering. **It is such a pity that some people indulge in such deliberate acts of cruelty that shames humanity.**

More Cases seen below

Out Station Cases

Ramgarh– OPD case

A community dog who was fed and looked after by our supporter Mrs. Kavitha Sri Kumar, the First Lady of the Sikh Regimental Centre, Ramgarh was brought for treatment at our centre in Ranchi. The female community dog was suffering from uterine prolapse. She was in immense pain. Our vet, Dr. Ajoy examined and treated her and prescribed medicines. She was taken back to Ramgarh after treatment. What society needs today are people like her who took all efforts to get the community dog treated by sending her to Ranchi 50 Kms away from Ramgarh and taking her back. **We salute her for care, compassion and love for community dogs. Later the dog was adopted by a loving family**

Hazaribagh Chapter—ABC and ARV Camp

A meeting was organized by Hope and Animal Trust, Ranchi working in different parts of country, (Varanasi, Aurangabad (Maharashtra), Ratnagiri, Patiala and Rishikesh) since last 15 years at Hazaribagh. It was an extended Hazaribagh group which participated actively in the meeting. In meeting, apart from Dr. Jigisha of Hope and Animal Trust, Ranchi, members of Hazaribagh group imminent per-

sonalities like Mr. Mohammad Khalid, Sri Dinesh Khandelwal, Dr Satyaprakash, Mr. Deo Pratap Singh, Mr. Ujjawal Pratap Singh, Mr. Suraj Kumar, Mr. Shivsankar Goswami, Mr. Kushal, some serving officials, some retired officers like Mahendra Prasad (IFS) participated. Happily we could arrange about 30 dogs to be sterilized and sufficient funds had been assured /arranged for camp in Hazaribagh in very recent future. Mr. Deo Pratap Singh assured and assigned to request veterinary officials for providing space in their campus for organizing camp. Mr. Dinesh

Khandelwalji assured and assigned to fix an appointment with Mrs Madhwi Mishra, Nagar Aayukt for further discussion for their involvement in working for community dogs. Meeting ended on very positive and happy thanksgiving to all enthusiastic participants.

A successful **Animal Birth Control (ABC) Camp** was organised on 31st January 2021 in Forest Colony, Hazaribagh with the support of the local volunteers. We sterilised 30 dogs (female 18 and male 12) in the camp. We are thankful to the RCCF Hazaribagh for giving us the premises for the sterilisation operation.

Ramgarh Chapter and ABC and ARV camps

The **first and second** Animal Birth Control (ABC) and Anti Rabies Vaccination (ARV) Camps were organised on 21 st and 24 th February 2021 at Sikh Regimental Centre (SRC) Ramgarh on the initiative of Centre Commandant Brigadier M Sri Kumar and Mrs Kumar. We sterilised 41 community dogs (female 24 and male 17) of the Sikh Regimental Centre (SRC) and Punjab Regimental Centre (PRC) in the two camps. We appreciate the efforts taken by Centre Commandant and the First Lady in taking such a positive step to curtail the population of the community dogs of the Cantonment in the most humane way.

The **third** Animal Birth Control (ABC) and Anti Rabies Vaccination (ARV) Camp on 26th June at Sikh Regimental Centre (SRC) Ramgarh approx 50 kms from Ranchi on the initiative of Centre Commandant Brigadier M Sri Kumar and the First Lady Mrs Kavitha Sri Kumar. We sterilised 29 community dogs (females 15 and males 14) of the Sikh Regimental Centre (SRC). Thus in all the three camps held so far total 70 community dogs have been sterilised.

Community Support

Blessings came in kinds. We are thankful to Mr. Kanchan Kumar an animal lover and resident of Sector 2, HEC for donating jute rugs for the community dogs undergoing treatment at our centre. Along with this he also donated 2 pair of shoes and 4 shirts for our catchers. We would also like to thank one of our volunteer of Bariyatu for donating 50 kg of rice for the dogs of our centre. Last but not the least we would also like to thank our Chairperson, Mrs Anjali Srivastava for sending 3 packing boxes for keeping things at the centre.

We are thankful to Balajee store owners for donating 2 cartoons of biscuits for the community dogs undergoing treatment at our centre.

Volunteer Support

Our regular donors Mrs Kiran Choudhary had donated 21 kg rice per month. Ms. Snigdha Srivastav has been sending 25 kg rice per month for the community dogs undergoing treatment at the centre.

We are thankful to Ms. Bhawana Rampuriya for donating 60 litres of Phynle every month to keep our centre clean and sanitised.

Apart from them we are thankful to all the donors, the list is endless who have donated from time to time for the community dogs undergoing treatment at our centre this year.

We are thankful to Mr Ashok Srivastava for donating surgical gloves and surgical material for the community dogs undergoing treatment at our centre. We are also thankful to our volunteer for donating medicines for the

dogs undergoing treatment at our centre. .

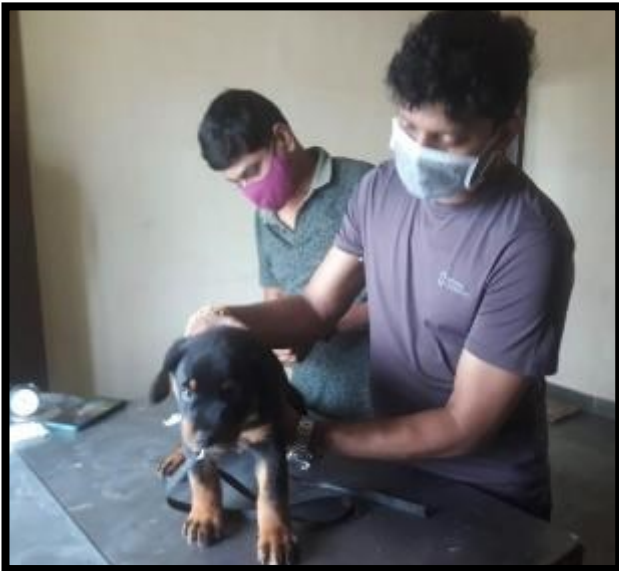

Municipality Registration of Pet Dogs

Registration of pet dogs is essential with municipality and it is done by us. A number of canine parents have got there pet dogs registered this year. Some of them are as follows.

We are thankful to One of our volunteer Mr. Lalan Sharma of Dhurwa along with his son Mr. Rohit Sharma and his son's friend visited our shelter to get their pet dog vaccinated and registered under the municipality. He saw our work and appreciated it. He also donated 20kg rice for the community dogs under going treatment at our centre. We appreciate his efforts as getting the pet dog registered under municipality is essential which was done at our centre

Mr M K Bablu canine parent of Leo a Labrador pup got his dog registered with the municipality.

It's a kind request to all to get their pet dog registered under municipality which is essential and is done at our centre.

Volunteer Support in sterilisation of community dogs

We are thankful to our volunteer Ms. Anushka Srivastava for getting four of her female community dogs whom she fed and looked after in her colony in Khelgaon sterilised. She fed more than 15 community dogs in her colony. After sterilisation the dogs were released back to their area in presence of Ms Anushka. What we need today are people like her who are compassionate towards the voiceless angels of the street and think for their betterment..

We are getting immense support from the people of Ranchi in sterilisation programme. They have been handing over the community dogs whom they fed for sterilisation and receiving them back.

Mr. Pratik Jaiswal of **Simdega** brought two female community dogs whom he has adopted to our centre in Ranchi for sterilisation and took them back with him after sterilisation. We appreciate him for adopting and being so sensitive towards their betterment. What we need today are people like him who are compassionate towards the voiceless angels of the street.

VARANASI FOR ANIMALS—Varanasi

As you all know that **Varanasi for Animals** is the Project name for Varanasi chapter of **HOPE and Animal Trust**. Varanasi Municipal Corporation has not signed MoU and hence we continued helping local villages with the help of grants that we received. Entire program was sponsored by Help Animals India, a US based Animal Welfare Organisation. Help Animals India has fully adopted the Varanasi Project due to which we are not dependent on Municipal Grants. While we help hundreds of animals rescuing, we continued our efforts in controlling the population in the village area.

ABC CAMP AT JAYPEE NIGRIE SUPER THERMAL POWER PLANT

DOGS CATCHING SNAP

We are thankful to Major General AK Sapra (Retd) VSM Vice President of 'J P Super Thermal Power', Nigrie and Mrs Sadhana Sapra for supporting the ABC and ARV camp in the premises. We were able to sterilize 27 dogs who will reap the benefits of sterilization in their latter life. We would also like to thank Col Mangat who helped in successfully catching and sterilizing the dogs. The need of the hour is to have people like them who understand the importance of sterilization as the most humane way to reduce their population.

VOLUNTEER'S CONTRIBUTION

Construction work.

This entire year, construction work was carried out and finally we are now having a facility of sheded window,all side complete plastering done ,aluminium partition panel ,dumble bricks finised road.

जानवरों की मदद को सदैव तत्पर है संस्था : डॉ. सेन गुप्ता

प्रादेशिक दृष्टि बार्ता वाराणसी उत्तर प्रदेश । वाराणसी फॉर रेनिमल संस्था इंसानों के ही जीवन को बचाने के लिए अपनी सेवा के लिए ही नहीं जाना जाता है बल्कि बेजुबान जानवरों की सेवा करने को लेकर संस्था पूर्ण रूप से समर्पित है। इसी कड़ी में संस्था के पशु चिकित्सक डॉ. सेन गुप्ता ने बताया कि जानवरों से प्रेम रखना उनकी देखभाल करना कहीं ना कहीं हम इंसानों का कर्तव्य है। वहीं आगे डॉ. गुप्ता ने कहा कि जानवर हम इंसानों के जीवन में अपनी अहम भूमिका निभाते हैं। दुःख स्वस्त करते हुए कहा कि जिस बेजुबान जानवर के माध्यम से हम दो पैसे की आमदनी करते हैं जब वे बीमार हो जाते हैं या शारीरिक रूप से कमजोर हो जाते हैं तो पड़कों पर लावारीश हातात

में छोड़ दिया जाता है क्या यह उचित है, इसी कड़ी में डॉ. गुप्ता ने कहा कि अपने मालिक के घर के खर्च में सहयोग करने वाला बेजुबान पौड़ा कभी अपने मालिक का सबसे प्यारा व कमाऊ होता था किंतु जब वे शारीरिक रूप से कमजोर व बीमार हो गया तो उसे के मालिक ने उसे सड़कों पर बेसहारा कर विचरण करने को छोड़ दिया। वहीं सड़क पर विचरण करते और अपने पीठ पर हुए घाव के दर्द से कराहते हुए छोड़े पर वाराणसी फॉर रेनिमल कि नजर पड़ते ही उस कि सेवा में और उस को निरोग बनाने हेतु संस्था के पशु चिकित्सक डॉ. सेन गुप्ता की टीम ने मौके पर पहुंच कर पूरे तनमन व समर्पित भाव से उस छोड़े कि सेवा में जुट गये । वहीं आगे डॉ. गुप्ता ने कहा कि जब तक जानवरों से लाभ होता है तब तक वे इंसान के प्यारे चहेते होते हैं वहीं शारीरिक रूप से बीमार होने व कमजोर हो जाने के बाद लोग उसे बेसहारा कर सड़कों पर विचरण करने के लिए छोड़ देना कहीं ना कहीं इस प्रकार के कार्य से मानव के सोच पर प्रश्न चिन्ह खड़ा होता है ।

बोकारो इन्स्टीच्यूट ऑफ मेडिकल एण्ड हेल्थ साइंसेस में गणतंत्र दिवस समारोह आयोजित

प्रादेशिक दृष्टि बार्ता बोकारो झारखंड

बांगड़ीह जैनागोड में स्थित बोकारो इन्स्टीच्यूट ऑफ मेडिकल एण्ड हेल्थ साइंसेस के फार्मसी एवं पारामेडिकल कॉलेज में गणतंत्र दिवस समारोह मनाया गया। इस अवसर पर मुख्य अतिथि श्रीमती कुष्णा यादव, विशिष्ट अतिथि श्री नागेन्द्र कुमार, श्रीमती नीलम देवी एवं श्री मनोज टाकुर ने संयुक्त रूप से ने झंडोलोत्तन किया इस अवसर पर मुख्य अतिथि श्रीमती कुष्णा यादव ने अपने विचार प्रकट करते हुए छात्र - छात्राओं को इस दिवस की महत्ता से परिचित कराया तथा उन्हें याद दिलाया कि वे ही देश के भविष्य हैं, और उन्हें ही देश की अखंडता एवं संप्रभुता की रक्षा करना है इस अवसर पर छात्र - छात्राओं के साथ कॉलेज के प्रभारी प्राचार्य श्री राहुल कुमार प्रसाद, व्याख्याता श्री मनमोहन कुमार सिंह, श्री समीर कुमार पंडित आदि उपस्थित थे।

Covid Era dog food distribution done at Varanasi—2021

With the coming of second wave of Covid 19 the entire country was spell bound. Every thing went berserk with explosion in the number of cases which no one could have ever anticipated. At this juncture no one could have ever thought off how difficult life of the lesser mortals (community dogs) could have been. To break the chain government imposed restrictions which was nothing but locked down. As the restaurants, food stalls etc were closed and only essential services were continuing for people. Due to this the furry angels of the street are not having access to the left over food. They are desperately searching for food in this troubled times. Thus with the support of our donor Help Animals India we bought over 200 bags of Dog Food worth INR 3,00,000 to be feed to community dogs in entire Varanasi with the help of volunteers and staff. This will be continued for next 3 weeks with feeding target of over 1000 dogs every day to reach out to over 10,000 dogs alternatively during this drive.

Guardians of All Voiceless Animals —Patiala

Guardians of All Voiceless Animals is the project name for Patiala Chapter of HOPE and Animal Trust supported by Guardians of All Voiceless, USA. GAVA has been engaged in rescue, treatment and release of distressed animals across the city and its suburbs. Besides this, we have also been involved in adoption and sterilization of community animals. Having been active in the field from a long time now, we receive approx 40-50 calls on any given day, not to mention the on-site follow-ups; attending such heavy number of calls would have never been possible because the kind inhabitants of the city.

Some Before and Afters:

We have successfully provided treatment to over 2600 animals with maggot wounds, accidental injuries, mammary tumours, TVT, Foot and mouth disease, some communicable diseases like distemper and parvovirus. Following are the pictures of a handful of successful stories that we could create throughout the year 2021.

Successful Foreign adoptions:

Haron's Adoption:

Haron hailing all the way from Canada !!

"Haron" AKA "Chotti Piddi" AKA "Piddi" is having the best time with her new family and obviously keeping her doggy brother on toes.

We just couldn't be happier to see her getting the love that she, for that matter every animal deserves.

This is what we work for and it's certainly our true REWARD. ♥

Special mention to Mr. Jagdev Singh and family for giving Haron a place in their hearts.

A not to forget Dr Premlata Chaudhary and whole team at "Petfly" for always giving their best with travel of our rescues.

Sona's Adoption:

Sona - finally at her forever home in Germany

Rescue after rescue, injury after injury, we know that following a rescue's work can be overwhelming but we are sure the adoptions and happy endings are what many of you are here for! So here we are, with a

great news to share about our sweet girl Sona who is now enjoying the best life at her forever

home in Germany. Her adopter "Dani Daniel" sure loves to pamper and spoil her with treats and toys. ♥

Sona's Rescue Story: She was ran over by a car, leaving her both hind limbs fractured, like many who don't receive help, she might have died in pain but thankfully her fate was something better. She was rescued after we were called by Mr Lakhvinder, on the next day of her arrival her surgery was done. After the surgery she was taken back to shelter and was provided the post-operative care. And after she healed we started her process for adoption, which took around six months and finally in the middle of November when she flew for her forever home.

COVID era Feeding and Water Tub Project:

New office:

The year 2021 was certainly a special one as we were able to move out our office from one of the team mates house to a proper office space.

Guardians of All Voiceless Animals —Rishikesh

Just like Patiala, the Rishikesh project is run under the name of Guardians of All Voiceless Animals it is also supported by Guardians of All Voiceless, USA. GAVA Rishikesh has been engaged in rescue, treatment and release of distressed animals across the city and its suburbs. Besides this, we have also been involved in adoption and a very small scale sterilization programme of community

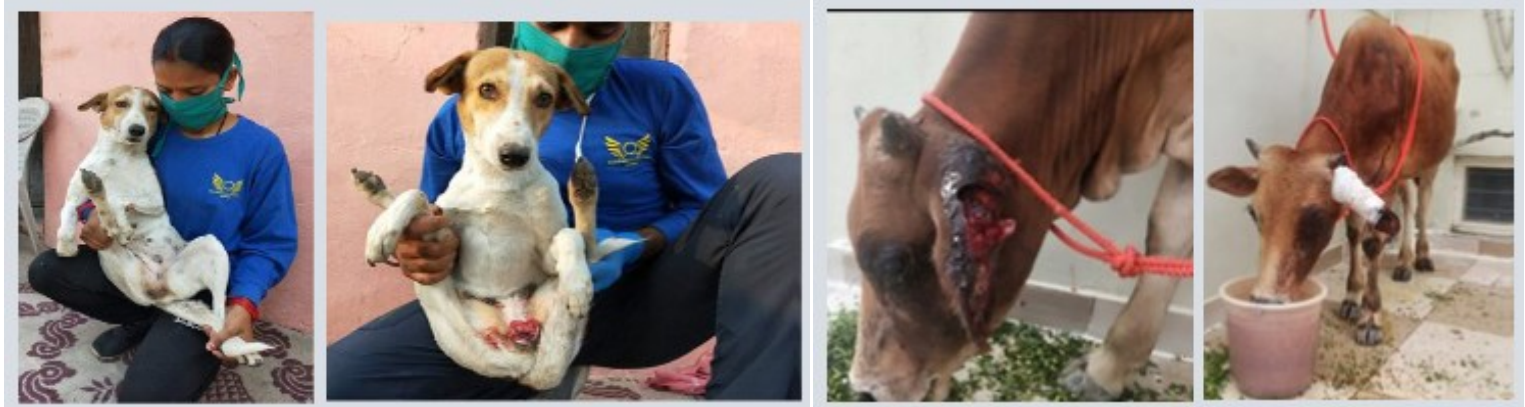

animals. Having a small team we always try to restrict our workload but since we have been active in the field from a long time now, we receive approx 10-50 calls on any given day, not to mention the on-site follow-ups; attending such heavy number of calls would have never been possible because the kind inhabitants of the city.

We have successfully provided treatment to over 550 animals with maggot wounds, accidental injuries, mammary tumours, TVT, Foot and mouth disease, some communicable diseases like distemper and parvovirus. Following are the pictures of a handful of successful stories that we could create throughout the year 2021.

Street feeding drive: Just like other projects in Rishikesh too we began a feeding drive in lockdown from March, 2020 which was later extended and the team continued the feeding community dogs covering over 40 dogs every day.

ADOPTIONS-

In comparison to our other chapters apart from Aurangabad the adoptions in Rishikesh are certainly higher, the numbers are a proof as in year 2021 we got total 40 animals adopted.

Aurangabad for Animals—Aurangabad & Shirdi

After our work with Municipal Corporation of Aurangabad got over, we started working using our newly constructed Shelter. In 2021 We have rescued and treated over 1000 animals, including over 50 serious surgeries. We ran ABC program for cats and dogs and also set up Mobile ABC and Treatment camps in the rural areas.

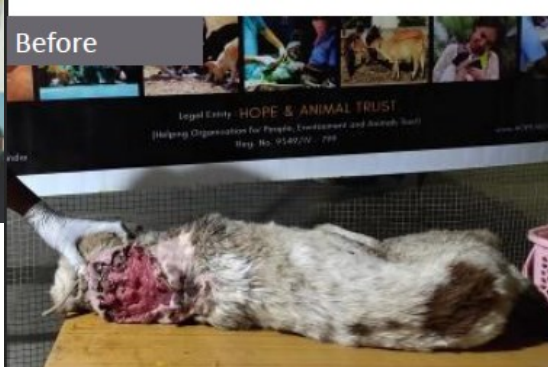

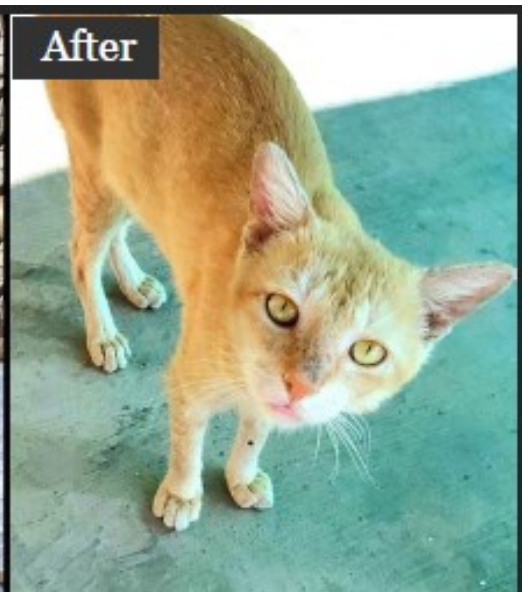

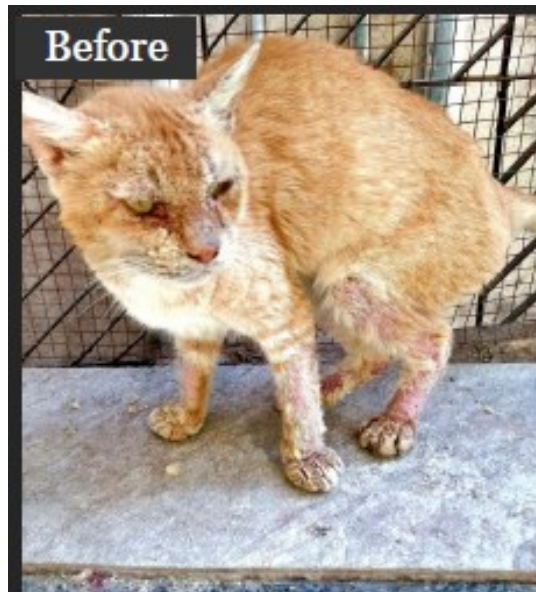

We have done adoption of over 200 stray cats/dogs through our adoption portal. In Aurangabad city, 110+ volunteers fed 2000+ stray animals every day during the Lockdown and continued to feed after the Lock down.

Participation of volunteers is vital for any non profit work. We are thankful towards all our volunteers and we are thankful towards all the donors who gives us resources to do the work we are doing.

Here is some good work in pictures

Meena undergone the surgery in which her stomach was cut open to remove the tumour. She was having a massive tumour weighing 5.5 kilograms. The tumour was removed and her stomach was sealed and so started her recovery process.

Feeding Activity

Installing water pots

As summer is approaching, our team has started installing waterpots across various locations for providing drinking water to stray animals.

This summer we installed 300+ water jars in the city of Aurangabad, Maharashtra. Our team is working towards installing as many water jars as possible.

Spaying and neutering

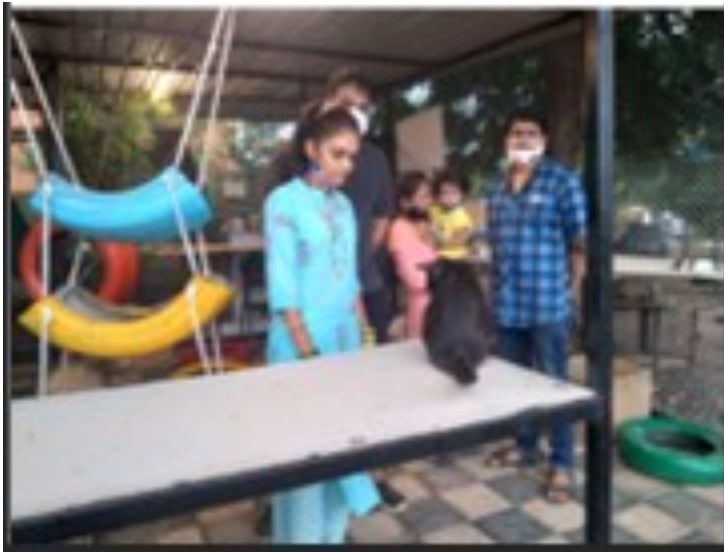

We have a fully equipped Operation theatre and fostering facility, where our expert doctors and staff perform neutering operations.

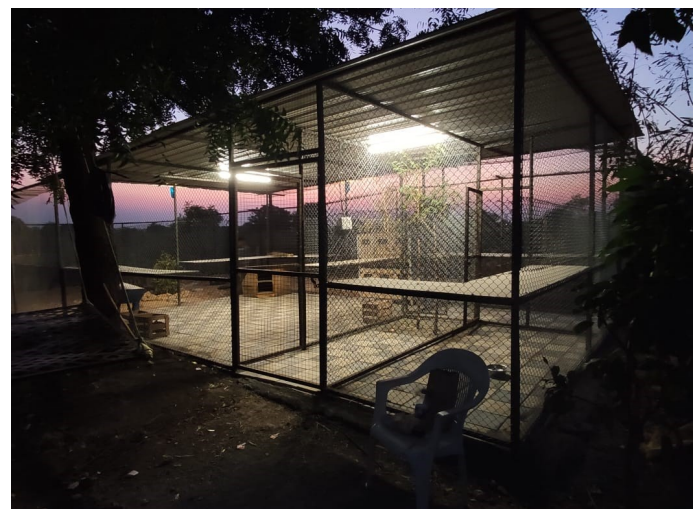

Spaying/Neutering is an important aspect of animal welfare and Animal Population Control (APC). APC supports to end suffering of mother canine/cat and also the suffering of those puppies kittens who die with hunger or negligence.

Cat Facility

It's a first Cat Facility in entire City, we are helping over 50 Cats, We try getting them new homes and encourage people to spay/ Neuter their cats so that they are not suffering on the street any more

Dog Facility

Like Cats, we have developed facility for the Dogs as well, all the injured, accidental dogs are brought and treated at the Shelter. We don't house them permanently, however, most of these dogs are going back to their original location after complete recovery, they all are spayed/ neuter and vaccinated before release. This is again first of it's kind facility in Aurangabad City.

Adoptions

Mobile Ambulance

One of It's kind in entire India, the Animal Ambulance is designed to provide Spay/ Neuter Surgeries, Treatments to all animals in the remotest areas of Aurangabad District
